## KING TUT

Learn about the famous King Tut's tomb in the section "This Week 100 years ago" **pg. 6**

# Welcome

Welcome, to the first ever issue of the first ever Heritage Newspaper! We hope you enjoy the many sections and articles we have created. Amazingly, all the articles were written and edited by students. Below you will find (almost) every student that has helped write, edit, and draw in this issue. Thank you for reading this, we hope you enjoy our student-lead and made newspaper!

# Book Review

The One and Only Ivan. A great book.

The One and Only Ivan is a really great read because of its detail, emotions, and the intriguing storyline.

The detail in The One and Only Ivan is amazing because of the realism it brings to your imagination. The thought the author put into the characters, the setting, and the plot keeps you wanting to read for hours. The author's writing brings together action, dialogue and thinking.

The One and Only Ivan is a good read because of the emotions the book carries. This book has a lot of meaning with the plot that makes the story come to life. Such as being able to make me laugh, cry and make me want to finish it with every chapter. In some chapters it carries sadness, meanwhile in others it carries happiness.

The storyline and plot starts out happy, but you get clued into some of the problems early in the story. The book in the middle is very intriguing and you'll just want to keep on reading and reading past your bedtime. This story holds a lot of meaning to me, especially when we think about how we treat people everyday and how we want to be treated.

The One and Only Ivan is a great read because of its detail, the emotions, and the storyline and plot. I hope you choose to read this book and enjoy it. Give it a try! I bet you'll like it.

# New Books in the Library!

There are some exciting new books in the Heritage Media Center. Let me tell you about some of the cool new books.

The first book is “Two Degrees” by Alan Gratz.. This book is about three kids who are all in major catastrophes—a wildfire, a polar bear attack, and a hurricane.

Are you ready for the next book in the “Keeper of the Lost Cities”? Well wait no more. Stellarlune is here!

The I Survived books have a great new book. The book is about the Wellington Avalanche of 1910.

\*\* Guess what? History Smashers is coming back. The new book is all about the Underground Railroad.

Dude Perfect is up next. Do you remember all those cool videos about trick shots? Well now there is a book about it. Read to find out more about the guys and all the cool tricks they do.

And don't forget the newest “Diary of a Wimpy Kid” book. It's a Diaper Overload.

It's all these and more. Want to see them all? Click [this link](#) to see the brand new books!!

# Sports

## The Man With “Unlimited Stamina”

It is amazing that even in his 20th year, LeBron James is still a top ten player in the NBA. His stats are: 24.9 points per game, 8.8 rebounds per game, and 6.9 assists per game to go along with a 44 inch vertical jump at 37 years old.

Other players who played 20 or more seasons did not play nearly as well in their 20th season. For example, Vince Carter had 5.4 points per game, 2.5 rebounds per game, and 1.2 assists per game in his 20th season. Another legendary Hall of Fame player, Kareem Abdul-Jabbar only averaged 10.1 ppg, 4.5 rbg, and 1.0 apg in his 20th season. That shows how good LeBron is in his 20th season compared to other legends.

LeBron is only 1,076 points away from having the most points ever, a record that is currently held by Kareem Abdul-Jabbar. Kareem has 38,387 total points, while LeBron has 37,311 total points. LeBron will probably beat that record because he will play more seasons than Kareem. Last year, LeBron scored 1,695 points, so it seems likely that LeBron will break the record this season if he does not get injured or miss time.

So with LeBron about to break the record and having a much better 20th NBA season than anyone else who has played a 20th season, it shows how great LeBron's career has been.

# History

## The Opening of King Tut's Tomb

It might be shocking, but 100 years ago, the great King Tut's tomb was opened.

On November 4, 1922, a team led by British Egyptologist Howard Carter, began excavating the tomb of Tutankhamun in the Valley of the Kings, Egypt. Tutankhamun, nicknamed King Tut, was an Egyptian pharaoh who ruled from 1333 BCE (when he was just nine years old!) until his death in 1323 BCE.

After he died, Tutankhamun was mummified, according to tradition, and buried in a tomb filled with art, jewelry, and treasures like gold. Desert sands and sand storms hid the tomb, and it stayed hidden for more than 3,000 years. On November 4, Carter's team found the first step of a staircase. The next day, his team dug up the whole staircase, it turns out that same staircase led to the tomb itself. By November 26, they uncovered an antechamber, a treasury, and the door to the tomb itself.

After much effort to open the door to the tomb, Carter saw a room filled with gold treasures. But it wasn't until much later that the sarcophagus containing Tutankhamun's mummy was revealed. Howard Carter died more than 10 years after the discovery due Hodgkin's disease on March 2, 1939.

# History

## The Longest Year Ever

### 1972 (50 Years Ago)

A fun fact about 1972 to start: in UTC Time, 1972 was the longest year ever, with two extra leap seconds during this 366-day leap year. On January 4, the first handheld calculator was introduced and could be bought for \$395. A day later, on January 5, President Richard Nixon ordered the development of a Space Shuttle program. Starting on February 3, the Winter Olympics were held in Sapporo, Japan. On March 2, the *Pioneer 10* spacecraft was launched from Cape Kennedy. On May 24, the Magnavox Odyssey, the first home gaming system, was demoed. It releases in August. On a related note, Atari, another video game company, was founded on June 26. On August 4, one of the biggest solar flares ever recorded knocked out cable lines in the U.S. On October 28, the Airbus A300 flew for the first time. On November 29, Atari released Pong, which sold over 35,000 units and was the first game to achieve commercial success. On December 14, Eugene Cernan was the last person to walk on the moon (currently) on the Apollo 17 moonwalk. Days later, on the 19th, Apollo 17 returned to Earth.

# History

## What Happened 100 years ago?

### 1922 (100 Years Ago)

100 years ago on January 11, the first successful insulin treatment for diabetes was made in Toronto by Frederick Banting. Almost a month later, on February 8, the first radio was installed in the White House for President Warren G. Harding. On March 20, the USS *Langley* was commissioned as the first U.S. Navy aircraft carrier. April 13, Massachusetts opened all public offices to women. On May 5, construction started on the Yankee Stadium. An important event: On May 30, the Lincoln Memorial was dedicated in Washington, D.C. (Picture shown off to the side). On July 11, the open-air Hollywood Bowl amphitheater opened. Not much significant happened during September or October, but on November 4, King Tut's tomb was found. In December, Stan Lee was born on the 28th and was a comic book writer and publisher, and the chairman of Marvel Comics.

# School News

## Upcoming School Events

Hello Heritage!

The past few months have been a great start to our Heritage year. We recently wrapped up our Treats for Troops program. It was a big success. The green pod gathered the most candy in the school and won. The student leaders have a lot of candy to send off to our brave troops.

The Student Leaders have also done an amazing job putting more cool items in our school store. Some of the new items include water bottle stickers, bouncy balls, pop its, and stuffed animals. Keep earning blue tickets to buy some of these new prizes!

The Scholastic Book Fair just finished on November 22. Every class had time to visit. We hope you bought some good books

The first trimester has wrapped up. Conferences were scheduled for November 21 and 22. We had half days both days. We hope you enjoyed your short, but (hopefully) nice Thanksgiving break.

Winter break begins December 23. School resumes January 9, 2023. Enjoy your time off!

# BIG News

## The Midterm Elections

The election is over! Sadly us kids didn't get to vote. You have to be a registered voter, a citizen of the USA, and 18 years old or older. Most of us are only 10, 11 maybe 12. But your parents probably voted.

In the election you couldn't vote for president, but in the state of Michigan you could vote for Governor, Secretary of State, The Attorney General, and many many more people.

The Attorney General is the state's top lawyer and law enforcement official, protecting and serving the people and interests of Michigan. Their duties include helping people who were hurt by crime, helping people to not get hurt by crime, preserving Michigan's natural resources, and more.

The secretary of state is responsible for the state's elections, in charge of vehicle registration, is 3rd in command in Michigan (after the governor and the lieutenant governor,) and more. Another person in our town your parents could have voted for is the mayor of Saline, people who are on the school board and others. There are different parties of which candidates are in. Not like birthday parties but government parties. Most people who are running are either a republican or a democrat, but you can also be an independent or some other party. There are A LOT of government parties.

As you can see the election plays a big part in our country.

Congrats! You just learned a little bit about the midterm elections!

# College of the Month

## The Rhode Island School of Design

Do you like art and designing? Ever thought about enrolling in a top university for creative and artistic people like yourself? Even if the answer is no, please read this article. It might spark interest in yourself. Even if it doesn't, you might want to know some interesting facts about the college of the month ... the *Rhode Island School of Design*, or the RISD for short!

Straight into it—RISD. The *Rhode Island School of Design* is one of the oldest art and design schools in the world. It is founded in March 22, 1877, by a small group of woman, 40 before woman was allowed the right to vote! At first, the school only offered two main directions, *Freehand Drawing and Painting* and *Mechanical Drawing and Design*. But as RISD grew and evolved, all sorts and forms of art were offered.

The *Rhode Island School of Design* has a requirement of SAT of at least a score of 1310—1480, which is a pretty high standard. Also, even then, there is an acceptance rate of 27.1%. As you might already see, the RISD is a pretty selective school. On top of that, the total fee with no aid is \$57,505, which is a lot higher than the average university cost.

Still, before you say "Nope, not going to even think about it," think about it again. If you are a perfect student but very poor, the RISD isn't going to turn you down. Instead, you will get financial aid. If you are a student that loves art, has a flair for it, and has determination and skill, the *Rhode Island School of Design* will be the dream school for you. **By Christine Zhao**

# Staff Spotlight

Mrs. Rossolot, Gym Teacher at Heritage

Q: What is your favorite Sports team?

A: University of Michigan,

Q: What is your favorite food?

A: Sushi

Q: What is your favorite amusement park?

A: Cedar Point,

Q: What is your dream pet?

A: Baby elephant,

Q: Why did you choose to become a P.E. teacher?

A: I like sports and athletics and working with kids,

Q: If you could live anywhere in the world, where would you live?

A: New Zealand,

Q: When is your birthday? And how does your family usually celebrate it?

A: June 11th, and a special birthday dinner to celebrate.

Try And Guess These Riddles!

## Riddles

For the first edition of the *Heritage Monthly Buzz*, we have made a list of riddles. The riddles always have an answer. The riddles are on Pg. 1, but the answers are on Pg. 2.

1. Plentiful in summer, but bare in winter.
2. You are in an abandoned house with no electricity, plumbing, or heating. There are three doors. Door #1 has a lion waiting to eat you, Door #2 has an electric chair, and Door #3 has poison gas. Which door will you choose?
3. You are on a boat. There are 12 people aboard. The boat has not sunk, but you look away and look back, and there is not a single person aboard.
4. I am found in Mercury, Earth, Mars, Jupiter, Saturn, and Uranus, but not in Venus or Neptune. What am I?
5. I am heard by many, but seen by none. I never speak unless spoken to. What am I?
6. Give it food and it will live, give it water, and it will die.

Continue the riddle answers on the next page

## Game Section continued

### Riddle Answers

1. Tree, because it has many leaves on it in summer but none in winter.
2. Door #2, because there is no electricity to shock you.
3. In this case, 'single' means married, so everyone is married.
4. The letter R.
5. An echo.
6. Fire. All the riddles were written by Everett Williams

### Fun Fact!

More than 90% of your taste is actually your sense of smell!

### Did You Know?

Honey bees flap their wings 230 times every second!

### What!?

There is a McDonalds in every continent except Antarctica.

### Mind BLOWN!

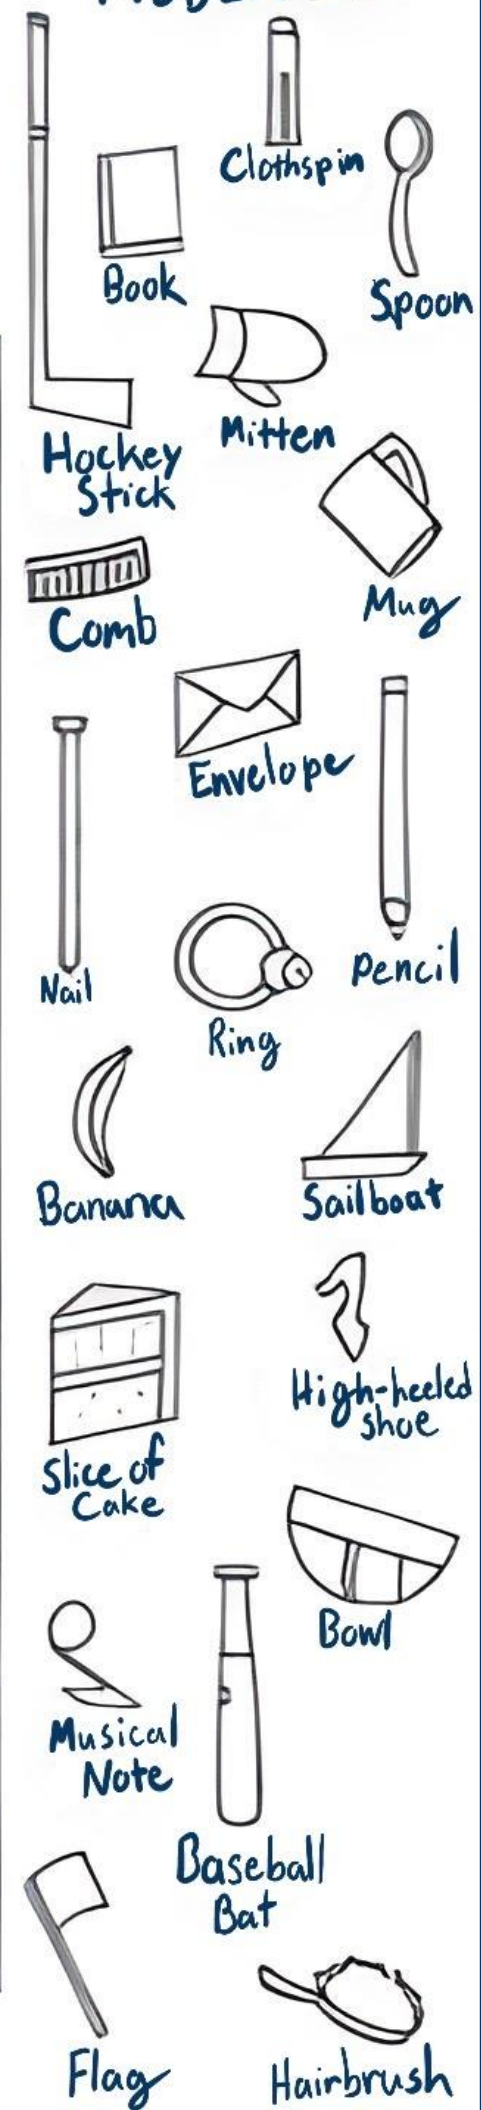

People who suffer from boanthropy believe they are a cow and will try to live their life as a cow.

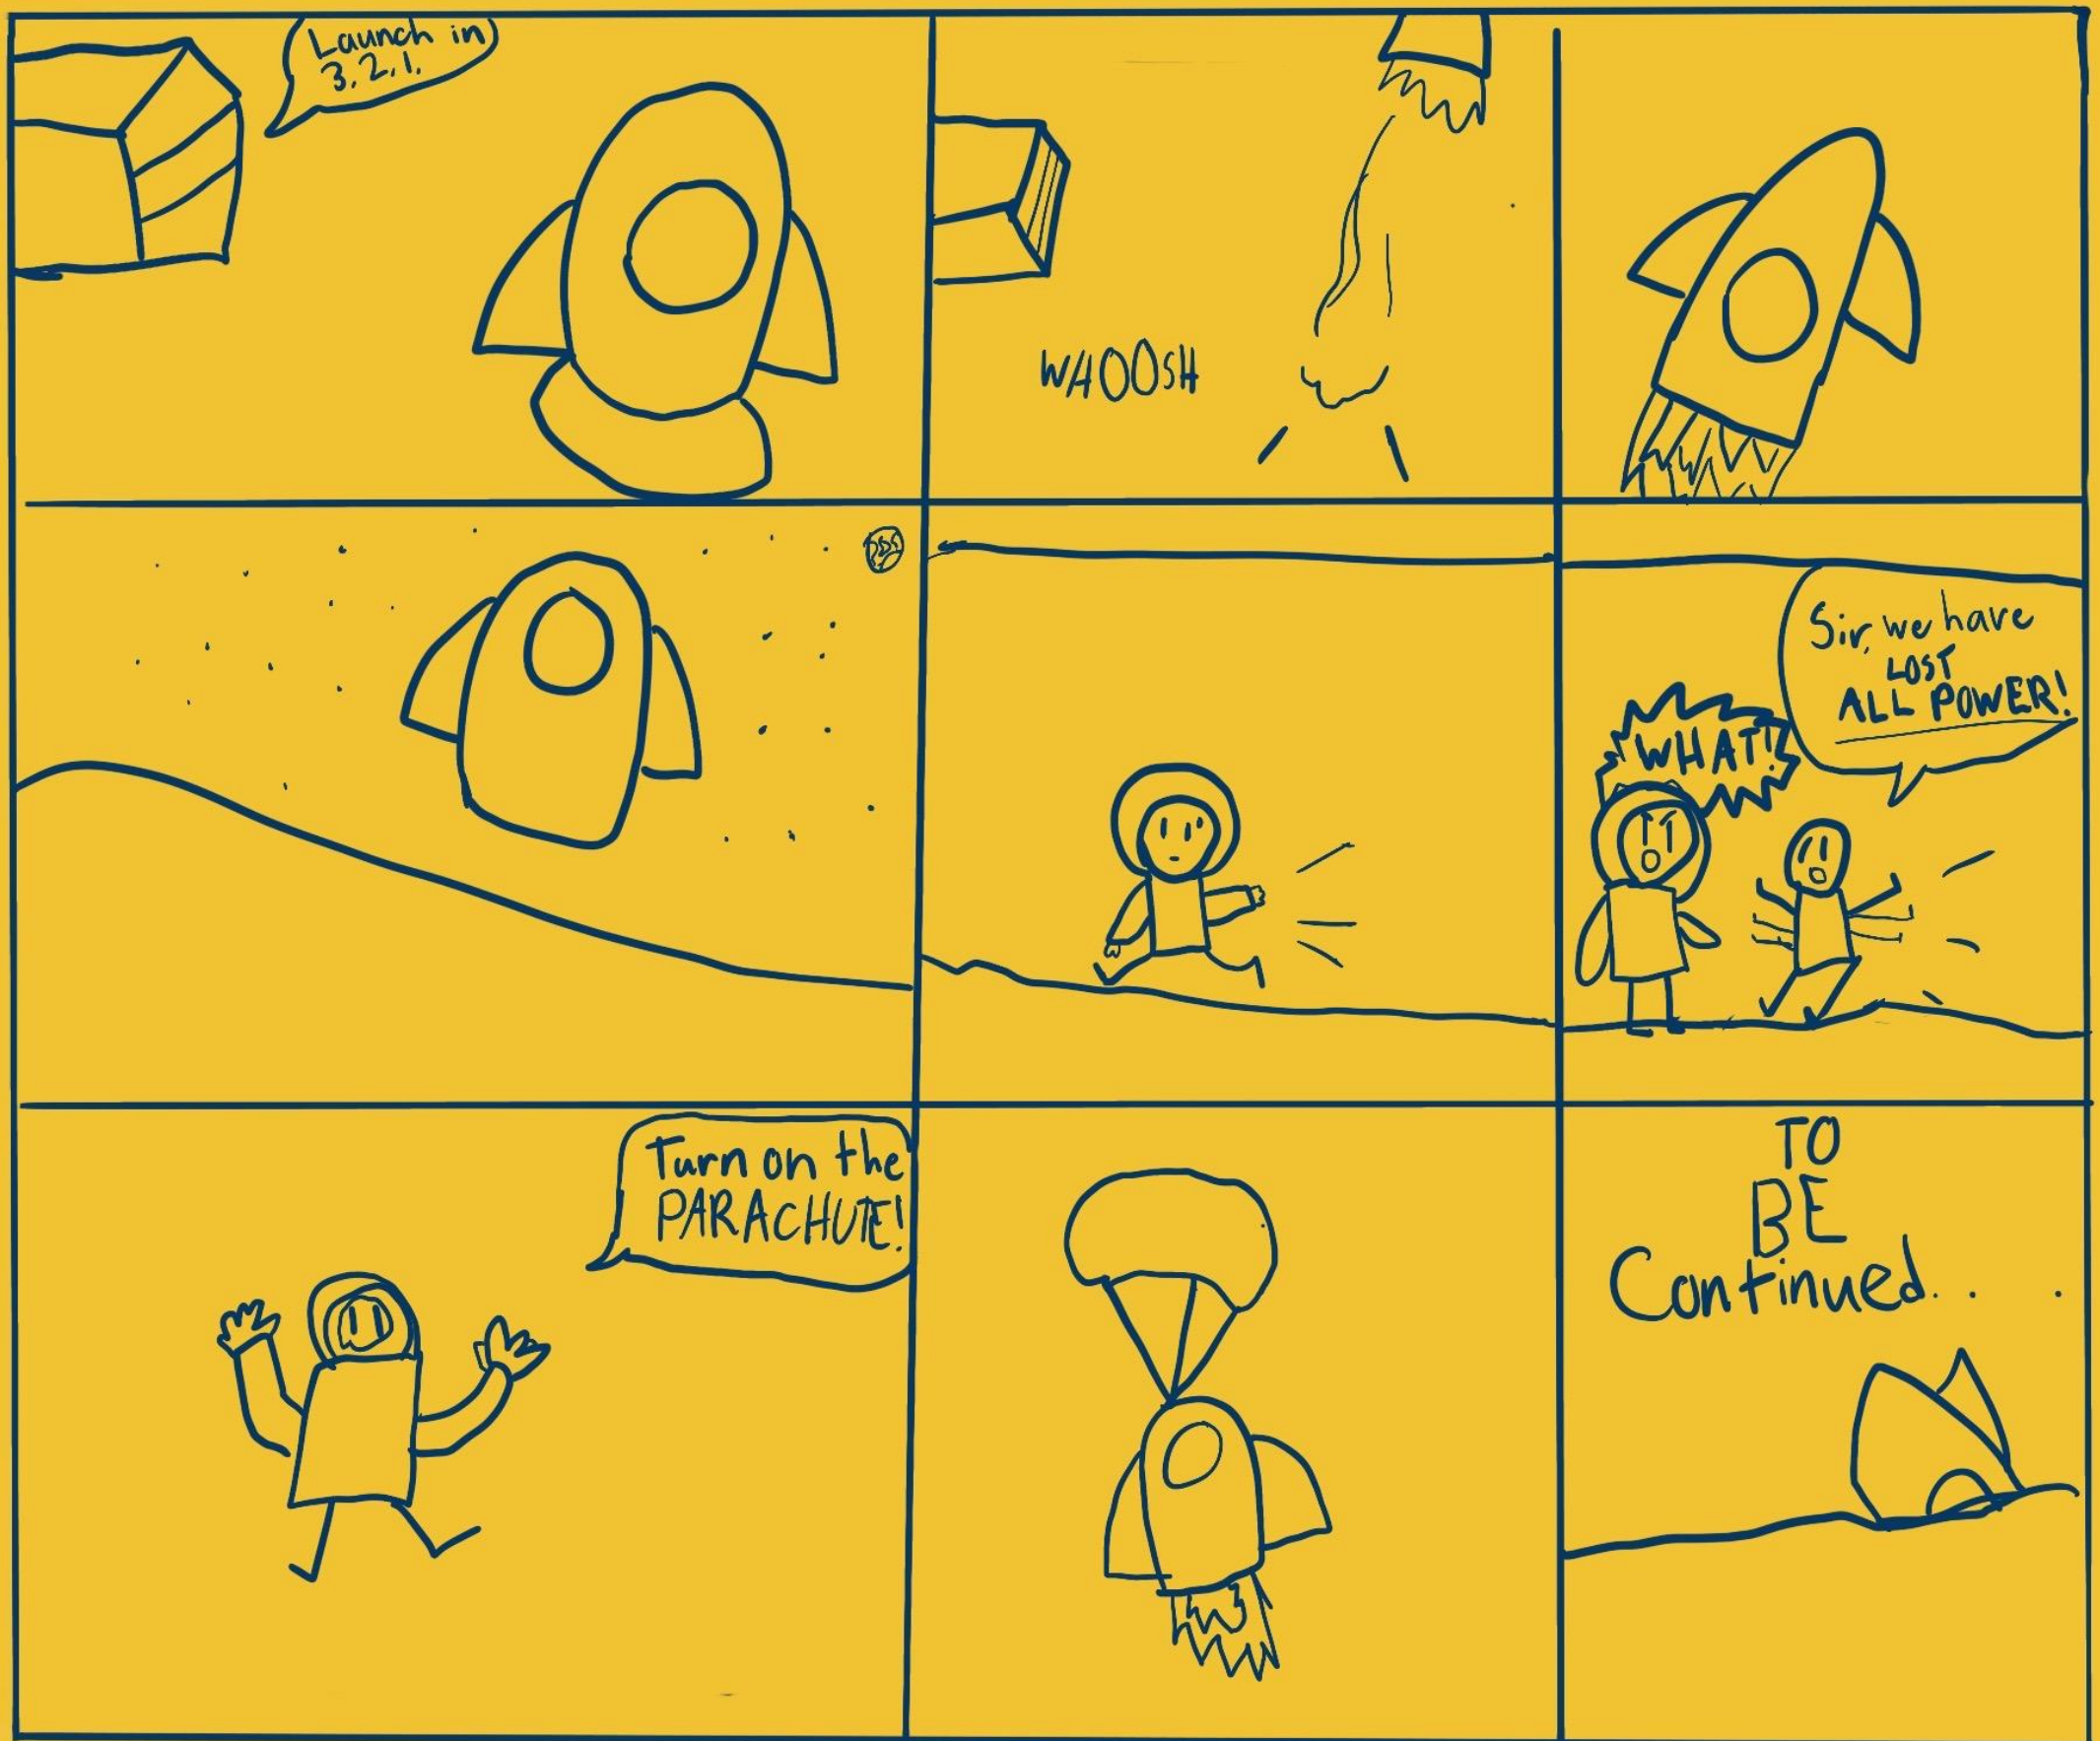

# Search and Find

Can you find these  
HIDDEN OBJECTS?

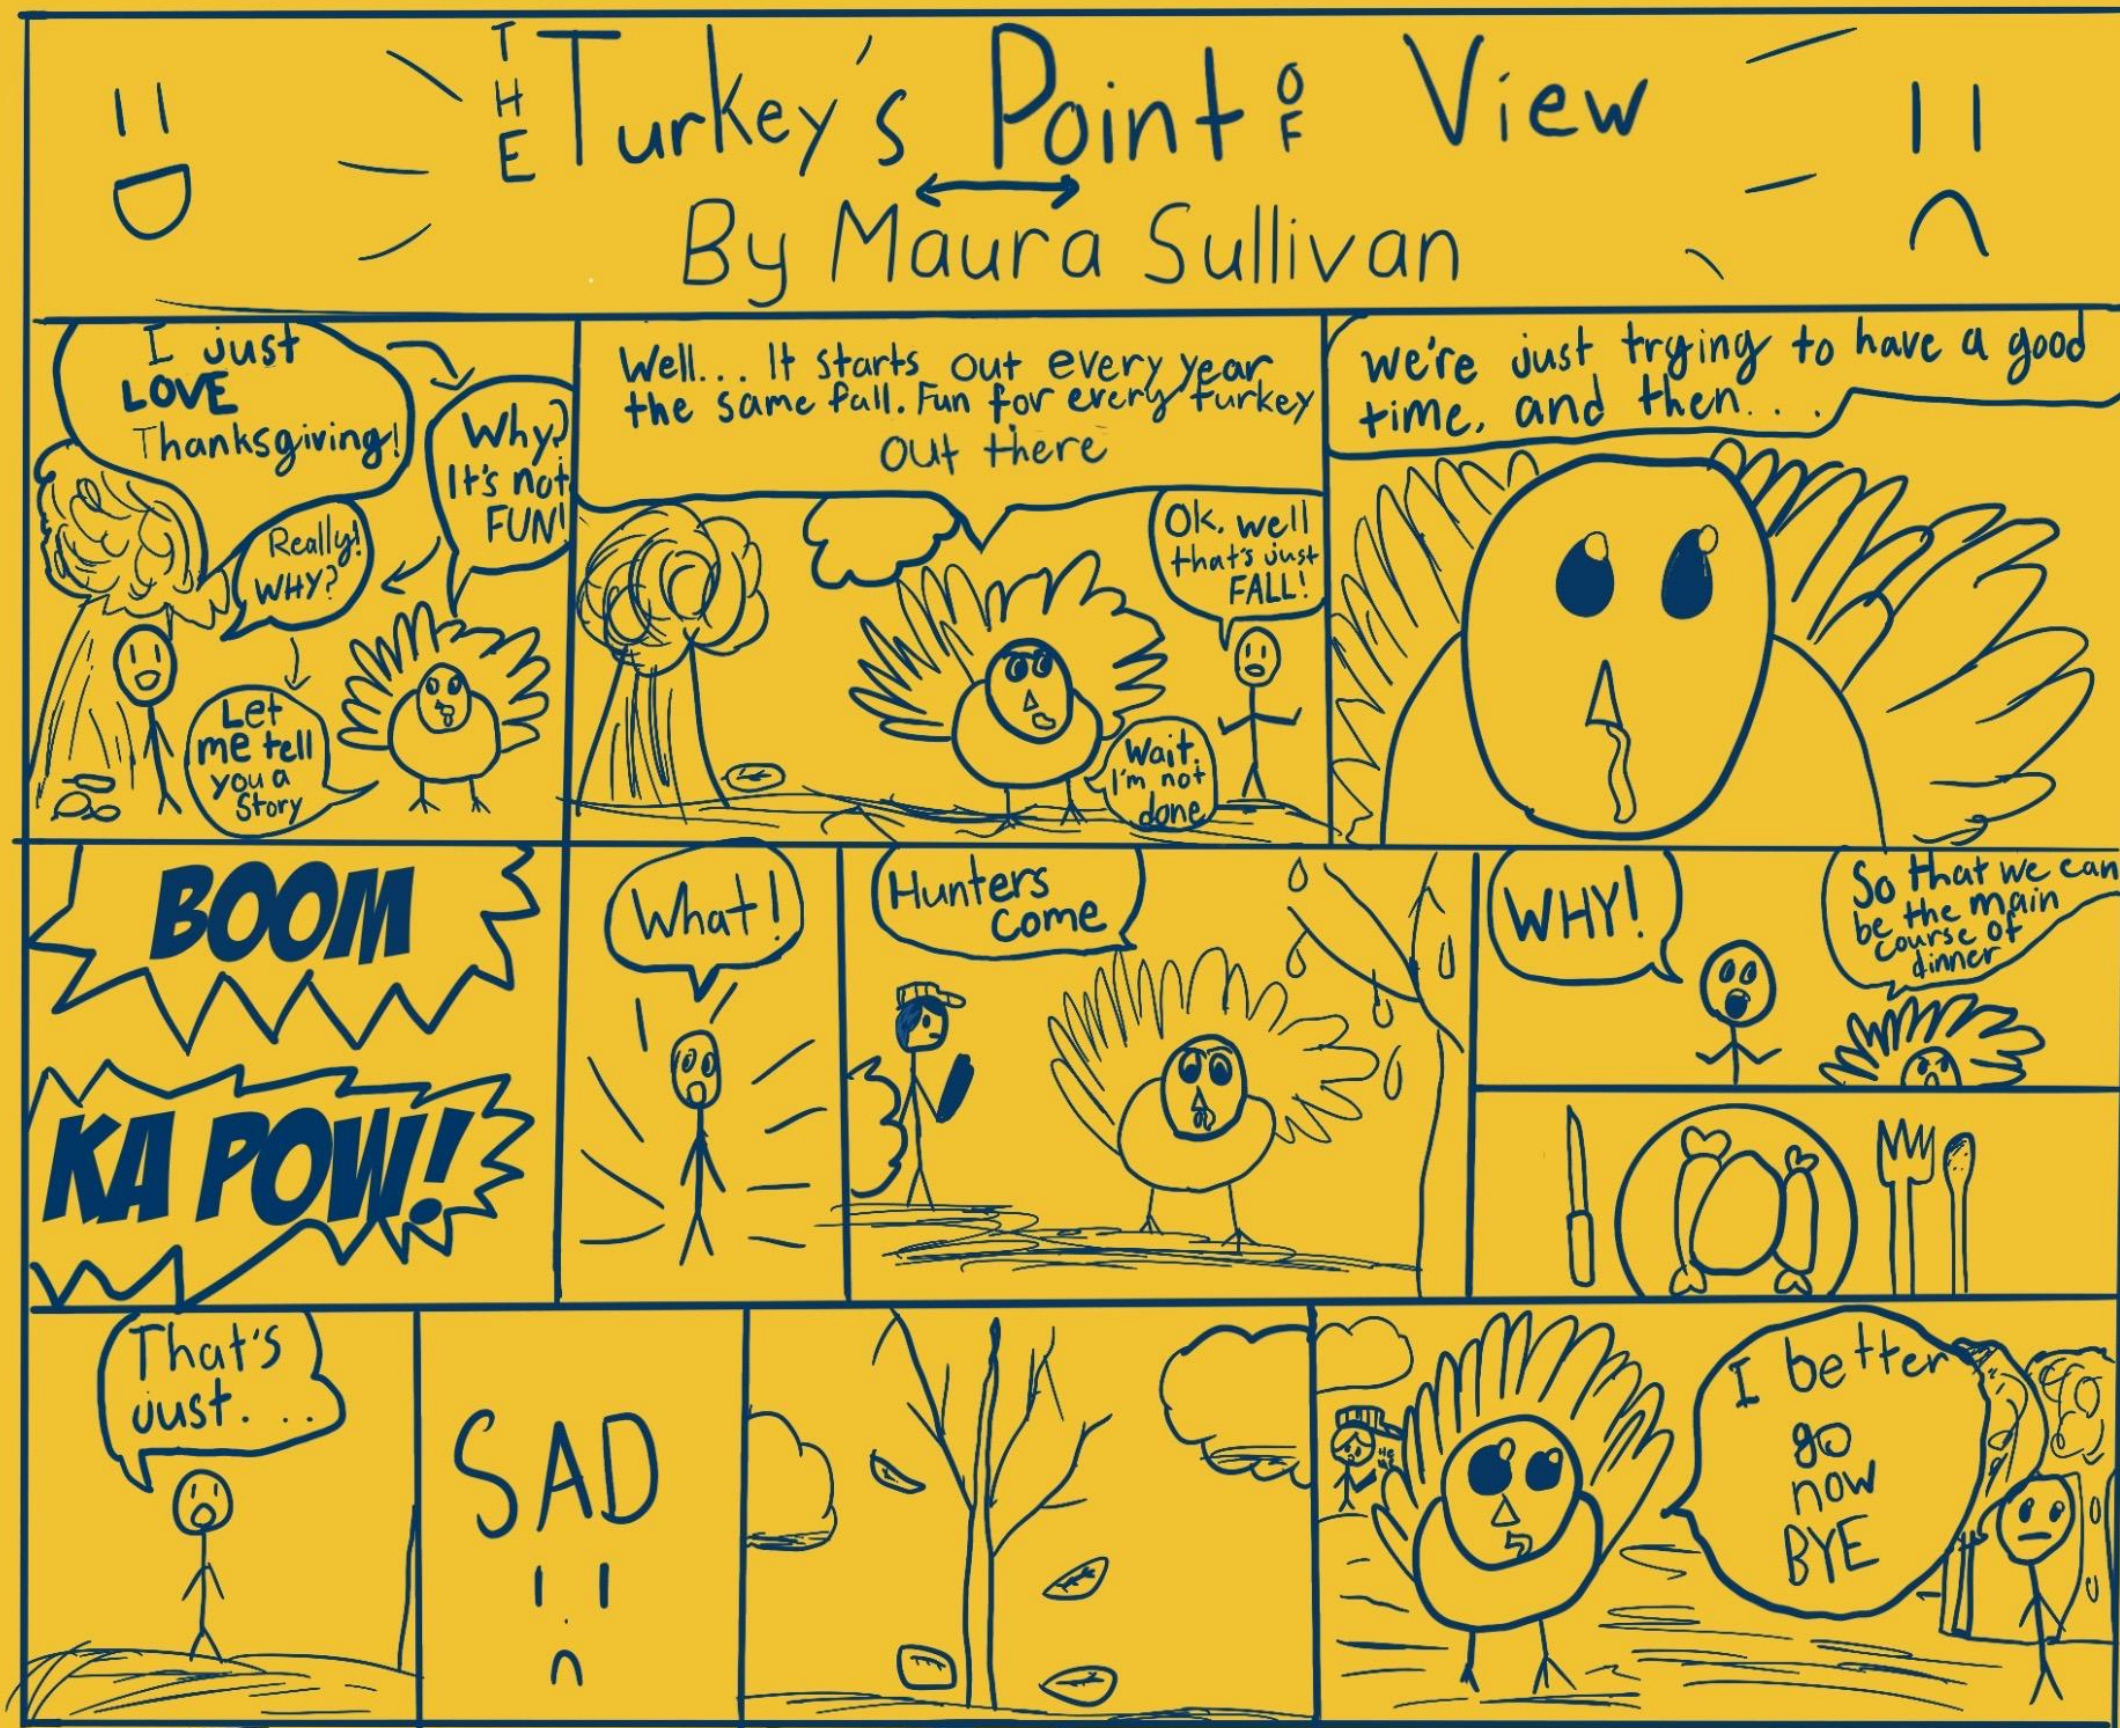

# Comic

By Dylan Williams

# Comic

By Maura Sullivan

# Arts and Crafts

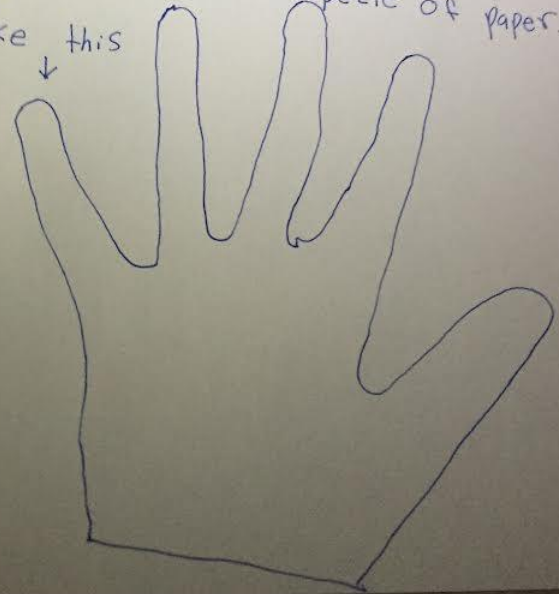

Supplies you need...

1. 5 different colored pieces of paper.
2. A pair of scissors
3. Some tape
4. A pen or pencil.

Step one

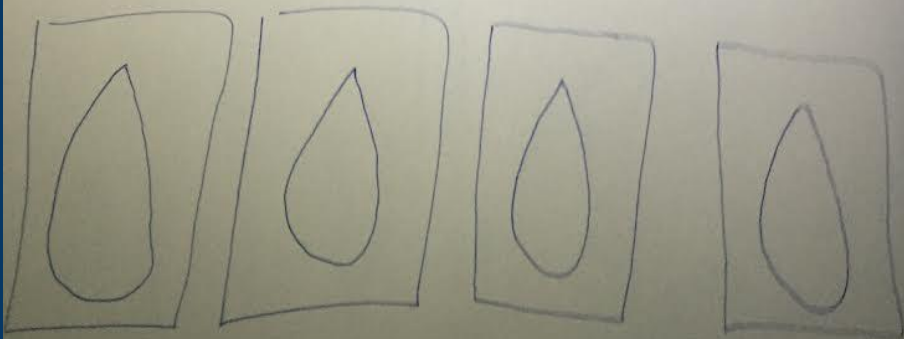

Take one of your pieces of paper and with your pen, trace your hand on the piece of paper.

Like this

Step two

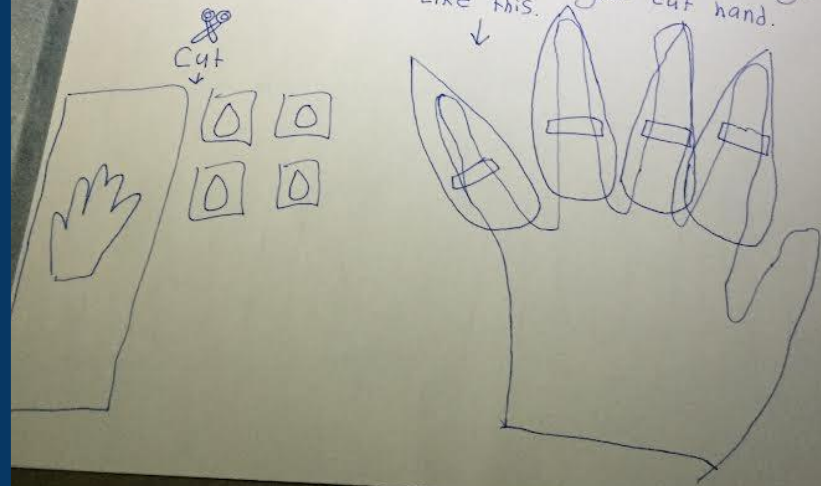

With your four other pieces of paper, make some leaves like this

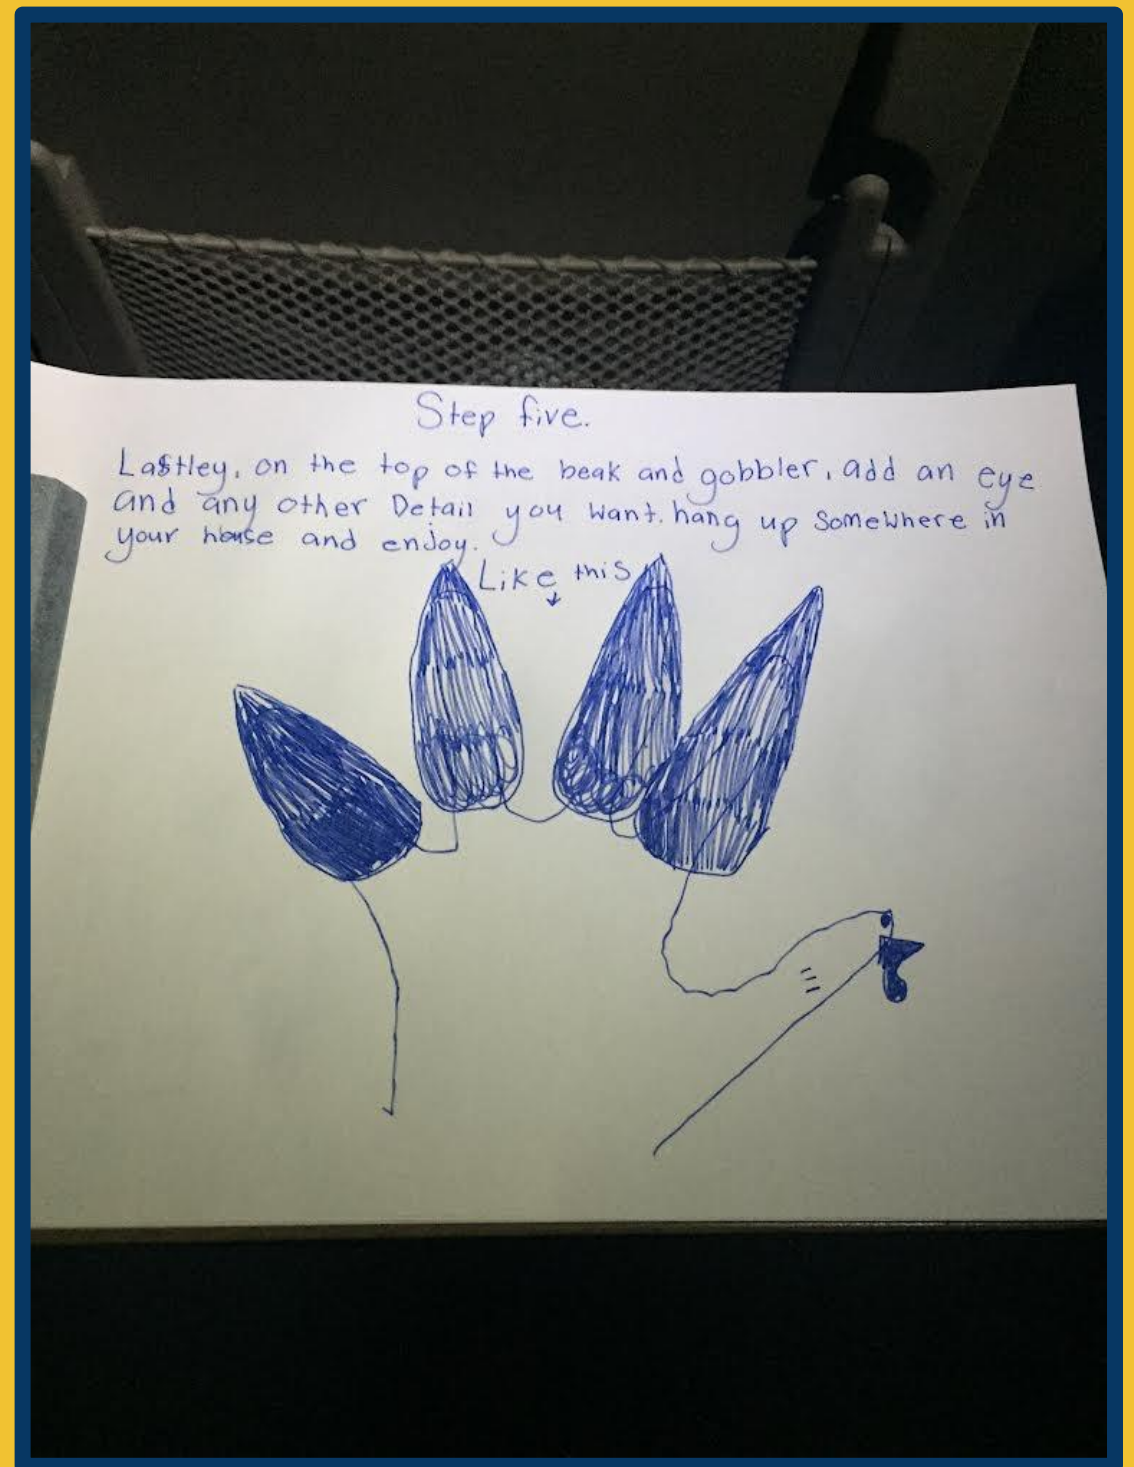

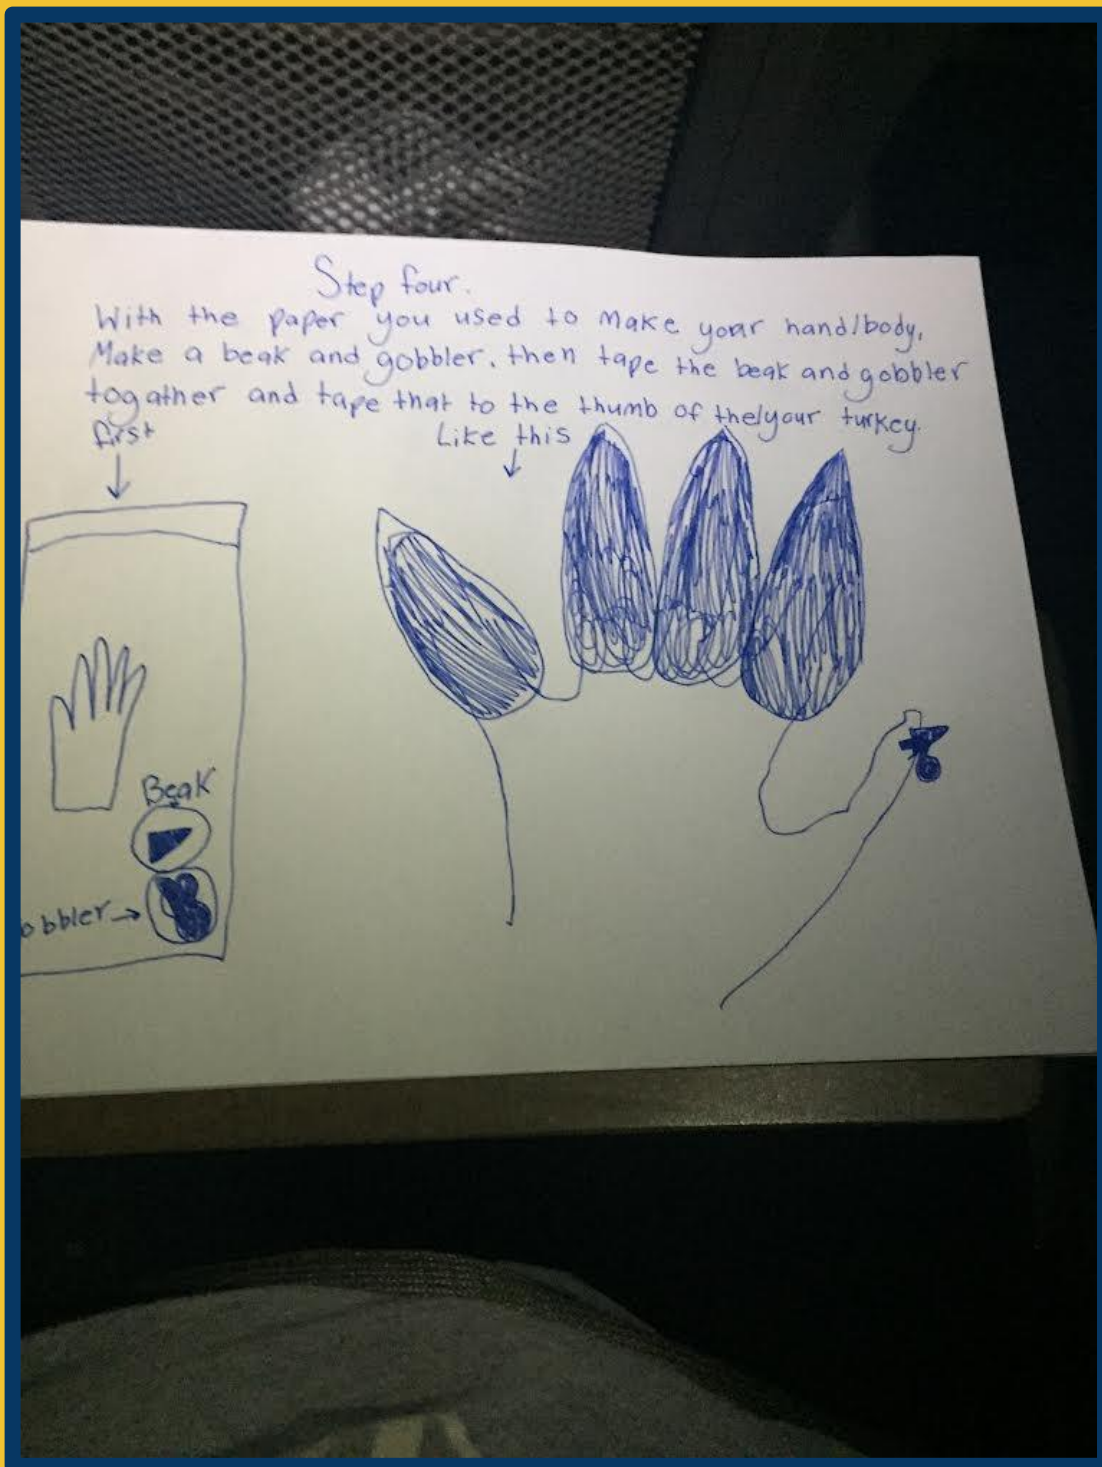

Step three.

Cut out your drawing of your hands and cut out your leaves too. Tape the leaves to the finger of your cut hand.

Like this.
